

SAFETY HEALTH & OPERATIONAL TRAINING PROGRAM

All IMC personnel have the responsibility for complying with safe and healthful work practices, including applicable regulations, IMC policy, and IMC safety procedures. Overall performance in maintenance of a safe and healthful work environment should be recognized by the supervisor.

Certification to attain the IMC *Level IV Operator Assurance & Quality Control Officer* is composed of 10 elements. All 10 elements need to be successfully completed in order to obtain **Level IV** certification. In order to complete Level III or above, employee must complete additional training on specialized metals.

Employee: _____ **Date:** _____
